GEOFFREY D. NOBLE
COLONEL/SUPERINTENDENT

MARK D. CYR
DEPUTY SUPERINTENDENT

To: Massachusetts Chiefs of Police Association
Traffic Programs Division, Massachusetts State Police
Commonwealth's Officers-in-Charge for the Draeger Alcotest 9510 Breath Test Instruments (OIC)

From: Kristen L. Sullivan, Chief Science Officer, MSP Forensic Services Division

Subject: Draeger Alcotest 9510 CommHub Address Update

Please be advised that by June 30, 2026, all Draeger Alcotest 9510 Breath Test Instruments in the Commonwealth require an update with a new address for the CommHub server. The server that the Commonwealth's Draeger Alcotest 9510 breath tests instruments currently connect to at the current Public Safety Data Center will be decommissioned when the location permanently closes in June of 2026. The new CommHub server at the Markley Public Safety Data Center will allow the instruments to continue to transmit breath test data to the Criminal Justice Information Services (CJIS).

This notification serves to inform you that your agency will be contacted within the next few months by the Office of Alcohol Testing (OAT) to schedule the necessary CommHub address change in your Draeger Alcotest 9510 instrument. To minimize disruption to your agency, an OAT Forensic Scientist will be sent to your location to complete and verify the update. A representative from OAT will be contacting Officers-in-Charge (OIC) to schedule a date for the CommHub address update. The OIC is not required to be present at the time of the update, however OAT Forensic Scientists will need access to the Draeger Alcotest 9510 within your location. If your agency's instrument is not updated with the new address prior to June 2026, breath test data from the instrument will not transmit to the new CJIS server.

Thank you in advance for your cooperation.

Respectfully,

Kristen L. Sullivan
Chief Science Officer
MSP Forensic Services Division
