Concentration Areas of Study

The curriculum focuses on master-level competencies essential for senior security leadership—including executive communication, tactical reporting, and interagency collaboration—culminating in a practical Capstone Application project.

Emergency Management
Master strategic leadership, ethical decision-making, disaster mitigation, crisis communication, and operational recovery strategies.

Cybersecurity
Gain comprehensive technical and strategic insight into threat landscape analysis, network architecture, hardware security, and cyber defense management.

Intelligence & Terrorism Studies
Examine the operations, structural mechanics, and strategic doctrine of the U.S. intelligence community.

Evaluate asymmetric threats to national security while analyzing ideological drivers and the psychological underpinnings of violent extremism.

Career Outcomes & Networking

The M.S. in Homeland Security Studies provides a direct gateway to senior positions in both public agencies and corporate security divisions. Experienced faculty actively mentor students, offering tailored career counseling, resume optimization, and direct professional introductions. Program alumni serve across leading institutions, including:

- Federal Bureau of Investigation (FBI)
- Department of Homeland Security (DHS)
- Homeland Security Investigations (HSI)
- U.S. Secret Service
- Drug Enforcement Administration (DEA)
- FEMA
- Department of State
- U.S. Coast Guard, TSA
- State Police and Municipal Police
- Private sector leaders like Raytheon, Biogen, and National Grid
